Company Overview

GovFusion Technologies, LLC is a Fort Worth-based, minority-owned, service-disabled veteran-owned technology company specializing in innovative software solutions for federal, state, and local government agencies. Established in 2024, we bring together a team of seasoned professionals with decades of combined experience in enterprise IT, software development, project management, and compliance-driven environments.

Core Capabilities

- Custom Software Development – Agile, scalable, and secure solutions tailored to mission-critical needs.
- Legacy System Modernization – Converting outdated systems to modern platforms (e.g., .NET, Java)
- Data Management & Analytics – Data integration, governance, reporting, and actionable business intelligence.
- Cloud Solutions – Cloud migration/ infrastructure across AWS, Azure.

Company Experiences

Differentiators

- Veteran leadership with federal mission understanding
- Deep experience in modernizing legacy systems for cloud readiness
- Agile delivery with a focus on security, scalability, and performance
- Proven commercial success in regulated industries
